

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Christine Gasienica
DOCKET NO.: 06-25837.001-R-1
PARCEL NO.: 19-08-423-024-0000

The parties of record before the Property Tax Appeal Board are Christine Gasienica, the appellant, and the Cook County Board of Review.

The subject property consists of a ten-year-old, three-story, multi-family dwelling of masonry construction containing 4,036 square feet of living area with two full bathrooms, two-half baths, air-conditioning and a three-car detached garage. The subject is located in Lake Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of three-story, multi-family dwellings of masonry construction located on the same street and within ten blocks of the subject. The improvements range in size from 3,600 to 4,507 square feet of living area and range in age from 10 to 42 years. The comparables contain three full bathrooms. The improvement assessments range from \$5.65 to \$7.82 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$37,695. The subject's improvement assessment is \$33,180 or \$8.22 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.: \$ 30,270
TOTAL: \$ 34,785

data on two properties suggested as comparable to the subject. The suggested comparables are improved with three-story, six or 25-year-old, multi-family dwellings of masonry construction located on the same street and within four blocks of the subject. The improvements contain 3,540 and 4,036 square feet of living area. The comparables contain three or three and one-half bathrooms, a partial-unfinished basement and air-conditioning. One comparable contains a two-car garage. The improvement assessments are \$8.02 and \$8.84 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables one and four and the board of review's comparable one to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$5.97 to \$8.02 per square foot of living area. The subject's per square foot improvement assessment of \$8.22 falls above the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
